## Coding Text

!           Something exciting – WOW!!

?           I am not sure about this.

☆           This is definitely important!

BK          (Background Knowledge)  
              This makes me think of ...

I           (Interesting)

IN          (Inference)  
              Using the clues in the story and my  
              background knowledge, I infer ...

P           (Prediction)  
              I think I know what is going to  
              happen next ...

*Coding text is a way to actively **make meaning** with what I read.  
Coding helps me to **think** about what I read. When I think about  
what I read, I **understand** it better.*
